

# New808Punks White Paper

## **So, what is the New808Punks? How was it inspired? Why was it developed?**

New808Punks are the new upcoming revolutionary NFTs in the NFT space which are inspired by CryptoPunks. New808Punks are a collection of 808 stakeable NFTs living in the Polygon blockchain. Each NFT generates 5 New808token (Polygon ERC-20 token) every 808 minutes. Holders can claim whenever they want and exchange it for WETH or any other ERC-20 token on a dex exchange like Quickswap.

Popular NFTs with ERC-20 tokens had their price rise by up to 1000% after launch and New808Punks are going to be one of them. There are only a very few NFTs that have their own utility & Governance token which helps in adding value to the NFT.

## **Why New808Punks? What makes New808Punks different from others?**

New808Punks will generate New808token, an ERC-20 token with a lot of utilities. New808token is the Utility and Governance token that powers the New808Punks Ecosystem. There will be 1,000,000 New808token initially created, New808token are backed 1:1 by New808coins. The initial liquidity provided will make it extremely profitable for both stakers and holders. Also, there is a 7.5% Royalty which is obtained from the Secondary market sale. This will be used to buy back and burn the New808token which in turn will help in increasing the floor price substantially.

Moreover, the value of New808Punks can be represented by:

- access to future events.
- backed by a pool of autocompounding N808 Masternodes.
- the artistic value of the collection.
- white lists for future partnerships.

## **What are The Legendary Punks?**

Limited characters with limited specialties, New808Punks are not just staked NFTs. There are 15 punks that are considered Legendary and are something worth fighting for. Collecting our Special Punks will give our collectors a lot of special features and responsibilities. Gotta catch em all!
